**1. Who Knows**

i wanna see you when the sun goes down  
before the stars come out to rest  
maybe we'll see one go shooting by  
who knows

feel the heat comin off the street  
you've been making me a wreck  
the way you kiss me like you don't know how  
who knows

i don't know i don't know  
where this is gonna go  
i don't care i don't care  
long as you are there

i been thinkin about this all day long  
there'll be no moon tonight  
let's throw a blanket down and watch the sky  
who knows

don't wanna go too fast or move too slow  
i wanna get this right  
close enough is enough for me  
who knows

i don't know i don't know  
where this is gonna go  
i don't care i don't care  
long as you are there

**2. Bells & Clover**

i never learned a damn thing  
to be proven right  
it's the bruises and failures  
that opened my eyes

if it were all bells and clover  
i wouldn't be where i am

it's not my body that makes me  
the flesh and the bone  
but the days spent in wonder  
embraced or alone

if it were all bells and clover  
i wouldn't be where i am

i can see looking back now  
as daylight grows dim  
all the briars and roses  
i feel them again

if it were all bells and clover  
i wouldn't be where i am

### **3. Ain't Got Jesus**

see the girls dressed up so fine  
ain't got jesus on their mind  
see the girls dressed up so fine  
ain't got jesus on their mind

there's a preacher now he's so bold  
countin dollars stead of countin souls  
he's on the tv thinks he's doin good  
but he ain't doin like a christian should

see the girls dressed up so fine  
ain't got jesus on their mind  
see the girls dressed up so fine  
ain't got jesus on their mind

politicians with their shiny cars  
doin business in the dc bars  
fillin their pockets up at our expense  
give em your vote and then they'll do it again

see the girls dressed up so fine  
ain't got jesus on their mind  
see the girls dressed up so fine  
ain't got jesus on their mind

see the girls dressed up so fine  
ain't got jesus on their mind  
see the girls dressed up so fine  
ain't got jesus on their mind

a just man falls seven times a day  
a righteous judge every step of the way  
see the girls dressed up so fine  
ain't got jesus on their mind

#### 4. What Would You Do

he'd been mending fences all day in the sun  
served him up his supper when he got home  
put the cork back in the bottle  
then he was gone

long and muddy road when i'm here alone  
i stack the wood, i watch the sky  
he'll be comin back  
maybe not tonight

what would you do  
what would you do

sliver of light when he opens the door  
my heart is pounding, my eyes are closed  
long night is coming  
by the sound of his voice

the wind is still and the moon is new  
the road is clear, the creek is low  
if the owls don't call  
the hounds won't stir

what would you do  
what would you do

his sleep is sound i can feel him breathe  
if the whiskey holds he won't hear me leave  
even in the dark  
i could find my way

what would you do  
what would you do

#### 5. Stable

stable as an earthquake  
steady as a landslide  
solid as a plan on shifting sand  
everybody knows every day it's a new lie  
never gonna do what you say you can

oh my  
you got me worryin  
oh my  
how this is gonna end

i hear your words

there's no mistaking  
sounds that come from a devil's tongue  
all you see what's there for the takin  
nothin be left by the time you're done

oh my  
you got me worryin  
oh my  
how this is gonna end

drivin thru an ice storm  
can't see the shoulder  
wind blowin hard in the dead of night  
a ride like this can't get any colder  
prayin someday gonna see daylight

oh my  
you got me worryin  
oh my  
how this is gonna end

## **6. One Foot in the Grave**

keep comin back to the place where it started  
never heard a whistle blow  
right back home when newly departed  
speedin up too slow

everybody knows what's comin  
can't get away  
spend our days one foot in the grave

cut my hair and changed my message  
ridin in another lane  
thought i cleared up all my messes  
everything the same

everybody knows what's comin  
can't get away  
spend our days one foot in the grave

steel wheels turn like lightnin flashes  
never gettin anywhere  
news all comes in thunder crashes  
anybody care

everybody knows what's comin  
can't get away  
spend our days one foot in the grave

## 7. Can't Live Without You

i knew it from the beginning  
i knew it right from the start  
i knew exactly what i should do  
walk out the front door  
never look back  
i can't help myself when i'm with you

i can't live without you now  
i can't live without you now  
the time is long gone  
for me to move on  
i can't live without you now

somebody's waiting  
waiting for me to come home  
i know exactly what i should do  
nothing else matters  
nothing at all  
i can't help myself when i'm with you

i can't live without you now  
i can't live without you now  
the time is long gone  
for me to move on  
i can't live without you now

hearts will be broken  
lives will be changed  
i know exactly what i'm gonna do

i can't live without you now  
i can't live without you now  
the time is long gone  
for me to move on  
i can't live without you now

## 8. Ghost

she planted flowers  
i water now  
you lived in rooms  
we live in now

i can't shake  
all i know  
i can't shake  
a ghost

i can't see  
i can't see

## 9. Not the Time

where are the faithful  
where have they gone  
off to the city or the farm

it's not the time  
not the time  
not the time

riches beholden  
what will you stake  
how will you deal with a cold hand of fate

it's not the time  
not the time  
not the time

live out the nightlife  
kneel down to pray  
how will they stand up the choices we make

it's not the time  
not the time  
not the time

## 10. Shoulda Been Done

how'm i gonna make it thru the night  
i set out to have a little fun  
i had another whiskey when i shoulda been done

how'm i gonna make it to the door  
it shouldn't be so very far to go  
but my buddy bought a round and i couldn't say no

how'm i gonna get up from the table  
wasn't ready when the room began to turn  
and here i thought tonight was gonna be a slow burn

how'm i gonna get up off the floor  
i need a little moment here to rest  
and figure out a way to get outta this mess
